PRACTICE PDF

Find the pages.
Keep what matters.

A deliberately tricky 8-page example for practicing PDF extraction.

YOUR THREE CHALLENGES

A Extract PDF positions 2-3 (the budget summary and details).

B Extract 1,3,5-7 (five non-adjacent pages).

C Extract page 6 and check whether the form still works.

The cover is PDF position 1, but it has no printed page number.

The numbers printed on later pages restart twice on purpose.

Jump to the terms page

PROPOSAL / SECTION A

Project budget summary

The PDF position is 2, but the printed number is 1.

Budget highlights

$42,500	$18,900	$9,800
Total budget	Development	Research

REVENUE FORECAST: The approved proposal assumes a staged rollout.

This is real, selectable PDF text. Search for REVENUE FORECAST.

The line items continue on the next page.

Example link: Soda PDF website

PROPOSAL / SECTION A

Detailed cost breakdown

PDF position 3, printed page 2. This is the end of the budget range.

Discovery and research	**$9,800**
Product design	**$7,900**
Development	**$18,900**
Testing and QA	**$5,900**

EDITOR REVIEW NOTE (ANNOTATION TEST)

A sticky note is attached to this page in the source PDF.

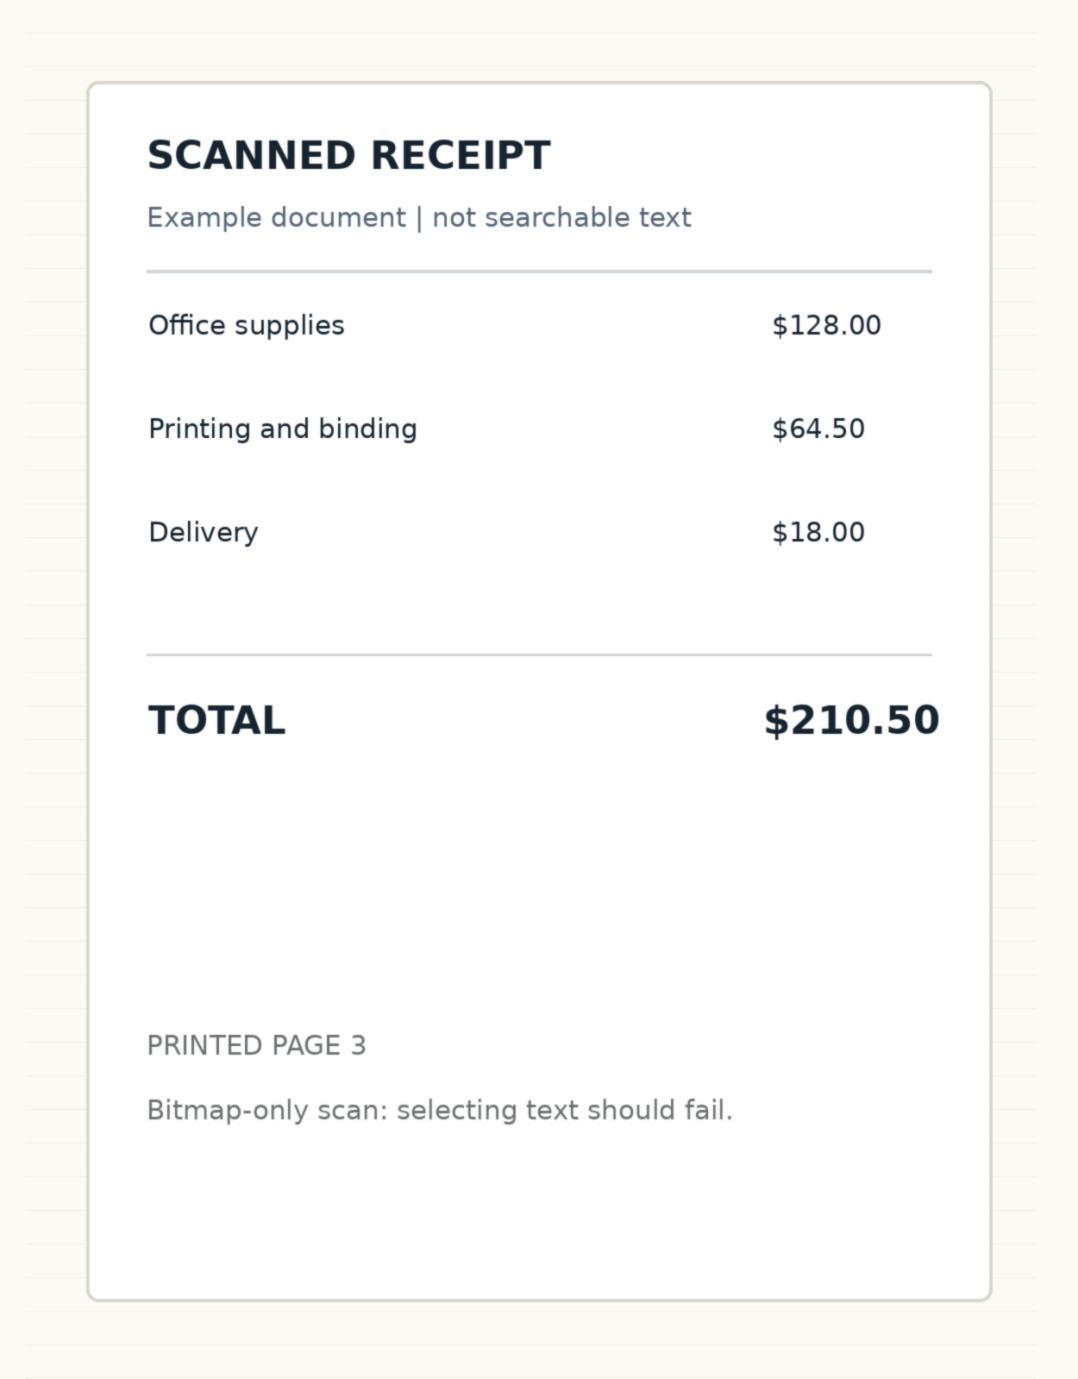

After extraction, check whether it can still be opened.

Continue to terms on PDF position 7

A scanned receipt

PDF position 4, printed page 3. This page is made from pixels.

PROPOSAL / CHART

Milestone diagram

PDF position 5, printed page 4. These shapes are vector graphics.

TIMELINE

These shapes and labels should stay sharp when you zoom in.

Open the budget summary

PROPOSAL / EDITABLE FORM

Project intake form

PDF position 6, printed page 5. Try editing the field in a PDF reader.

This is an actual fillable PDF form, not a screenshot of one.

Project contact

Avery Chen

Contact confirmed?

☑ Yes, this sample field is checked.

IMPORTANT

A page can look identical while its form behavior changes.

After extracting this page, try typing in the contact field.

PROPOSAL / SECTION B

Terms and references

PDF position 7, but the printed page number starts over at 1.

Terms

The project requires approval from both parties before launch.

All deliverables are illustrative and contain no sensitive information.

Budget references point to an earlier part of the PDF (page position 3).

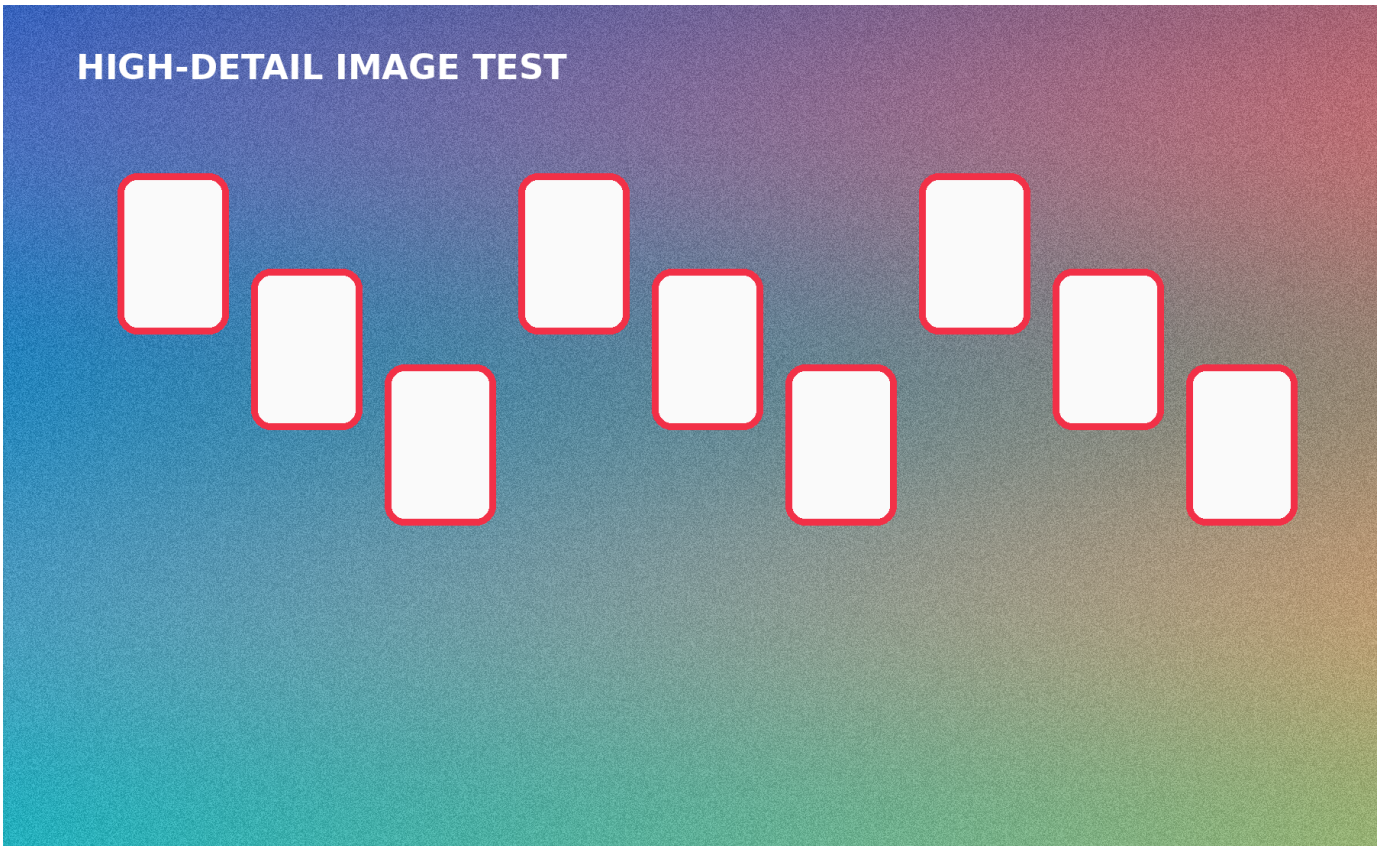

If that destination page is left out, test whether the link still works.

Go to detailed cost breakdown (PDF position 3)

APPENDIX / IMAGE

Image-heavy appendix

PDF position 8, printed page 2. This page contains a large bitmap.

A page that contains a large embedded bitmap may be much larger than a page of plain text or vector diagrams.
